Jacksonville International Airport SMS Safety Bulletin

JETBLAST

Engine jetblast can be extremely dangerous leading to serious harm, death, and damage to property.

It is estimated that there is up to $5 BILLON in damages every year from FOD, jetblast, and ramp/ground incidents every year worldwide.

ALWAYS pay attention to what is behind an aircraft including construction sites, parked equipment, and other aircraft operations.

ALWAYS maintain safe distances behind operating aircraft.

STAY ALERT. WORK SAFELY. PROTECT EACH OTHER.
